DETAILED ACTION

Reissue Applications

This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action. The 37 CFR 3.73(b) certification currently in the file is incorrect. The assent would have been adequate to show the certification requirements except that it does not state the ownership interest, (e.g., "the entire right . . ." or a statement to that effect).

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) is required for the amendment filed 30 January 2006 and must be received before this reissue application can be allowed.

Claims 1-19 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Response to Amendment

The amendment to the claims filed on 30 January 2006 does not comply with the requirements of 37 CFR 1.173(b)(2) because the newly added subject matter, relative to the original patent, is not underlined in its entirety. The struck through matter must be deleted and what remains must be underlined.
